# INTENSE PULSE LIGHT LASER

*We are the only clinic in the midlands to be using the LUMENIS intense pulse light therapy - the best in the world.*

IPL allows you to have a more youthful, fresher looking face without any invasive treatment. A hand held treatment piece is covered with a cooling gel and placed against the skin. Pulses of light are delivered through a special filter which penetrates the tissue. Sessions are short and convenient for you and you will be able to even reapply your makeup if needs be to go back to work.

## IPL treats:

- Acne
- Fine lines and wrinkles
- Brown spot and pigmentation
- Rosacea
- Thread veins and Telengectasia

Dr Choudhuri, Dr Jabbar and their team strive to offer you the best and safest tailor made treatment plan. They personally carry out or supervise all treatments. They are members of the Royal College of General Practice and the British Medical Laser Association (BMLA).
